Who Does Your Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

CARBON TRADING CO.

LITTLE ITEMS OF LOCAL INTEREST

Paul Hotson, Jeweler and Optometrist, Acme, has complete eye testing apparatus here every Thursday. Entrance through Regal Gas office. Mr. Hotson is an expert in his line.

J. W. Baird came out from the city on Saturday.

Dennis Willson and John Doerkson were Carbon visitors on Sunday.

School opened on Tuesday and we understand that a number of new pupils are starting this year.

Mrs. M. Smith and G. F. Macgregor were business visitors to Didsbury on Saturday last.

Mr. and Mrs. S. F. Torrance and Children motored to Calgary on Wednesday and returned Saturday.

W. Leitch made the trip to Rose dale on Tuesday.

A heavy smoke has been prevalent in the vicinity this week and it is believed to be caused from forest fires raging in the foot hills.

—C. H. Bothamley, jeweler, will be at Peters Store every Thursday with an up-to-date stock of Diamonds, Watches, Jewelry, etc. First class repair work done while here. Leave repairs at Peters store.

Miss Ella Halstead left Monday for Calgary, where she will attend Normal School.

Mr. and Mrs. L. Poxon and son Francis were Calgary visitors on Sunday and returned Monday.

Mr and Mrs. J. Flaws spent the week end in Calgary.

We had a letter from Frank Seymour last week and he is in the Central Sanitarium Calgary, where he is recovering from a severe attack of Consumption. Frank says that he will be around again as well as ever in about six months.

L. B. Hart is the owner of a new Ford car.

Several good second hand binders for sale cheap, John Deere, McCormicks, Massey-Harris, and Deering—Alex Reid. 3tc

Mildred (icily): And shall I return the engagement ring?

Frank: Oh no, don't bother; I'll just have the notice of the next instalment sent to you.

Won Her Way

Miss Kathleen Moore, diminutive Scottish dance star, with the E. W. Beatty Cup, emblematic of the Highland dancing competition at the Vancouver Caledonian Games, Miss Moore also won a free trip to the Highland Gathering at Banff where she will appear in the competitions held during the festival between August 31 and September 3.

DRUMHELLER TENNIS TOURNAMENT

At the tennis tournament held at Drumheller on Sunday and Monday last, and open to all players in the Province of Alberta, the following representatives from the Carbon club competed:

Messrs. V. Hawkins, J.M. MacDonald, G. Peters, Alfred Braisher and W. Edwards. Mrs. Laing, Mrs. Willson, and Miss K. Ramsay.

Miss Ramsay and Mrs. Laing did exceptionally well in the ladies doubles, reaching the final after defeating the crack Drumheller players, Mrs. Fenton and Mrs. Swan in the semi-final, but lost in the final to Mrs. Thorburn of Veteran and Mrs. Van Ostrand of Calgary, who rank as two of the best lady players in the Province.

W. Edwards won in the first round of the Men's Singles, defeating Mr. Ginther of Drumheller, and in the second defeated Curtis Wiertz, but lost in the third round to F. Stuart, the Calgary champion.

Alfred Braisher defeated Mr. Gillender of Drumheller in the first round of the men's singles but lost in the next round to Halliday of Drumheller.

Miss K. Ramsay defeated Miss Shand of Drumheller in the first round of the ladies' singles, but lost in the next round to Miss Temple, who ranks as one of the best lady players in Calgary.

Messrs. V. Hawkins and J. M. MacDonald defeated Ginther and Tuttle of Drumheller in the men's doubles, but lost to Collett and Hooker of Drumheller in the next round.

J. M. MacDonald and Mrs. Laing, V. Hawkins and Miss Ramsay, G. Peters and Mrs. Willson, also competed in the Mixed doubles, but as they had the luck of be-

J.J. NEHER HAULS FIRST LOAD WHEAT

J. J. Neher brought the first load of this season's wheat to be delivered to the Carbon elevators. On Monday morning Mr. J. J. Neher threshed the grain with a combine and that afternoon he brought the first load to the local A. P. elevator. With the exception of a few green kernels the wheat graded a No. 2.

This was just the first load of grain to be hauled to the local elevators this season and with the harvest well advancing and the number of combines in the district, it will be only a few days before many more loads of the 1928 wheat crop will be brought to the elevators.

TENNIS NOTES

The final in the ladies' doubles was played on Saturday last and resulted in a win for Miss K. Ramsay and Miss E. English, who defeated Miss Fraser and Irene Nash 6-3, 6-5, and won the handsome first prize donated by the Farmers' Exchange. The second prize presented by W. A. Braisher, went to Miss Fraser and Miss I. Nash. The third prize donated by Mrs. Peters was won by Miss V. Poxon and Miss Braisher.

FLOWER DAY TO BE OBSERVED AT THE UNITED CHURCH

Holidays are over and school has opened. Shall we resume our interest in church work? God has promised to honor those who honor Him. Let us do this next Sunday as we shall gather for Flower Day. All who have plants or flowers are cordially invited to bring them along. Let us speak our gratitude with flowers as well as with the whole heart.

SHOOTING SEASON OPENS ON SATURDAY, SEPT. 15th.

Closed Season on Prairie Chicken

Opening date for the shooting of ducks, geese, coots and Wilson or rock snipe in this province south of the clearwater and Athabasca rivers for this season has been set for Saturday September 15. North of the clearwater and Athabasca rivers the season opens on September 1. Closing date is December 14th, 1928.

Daily bag limits are as follows: ducks, 20 per day and not more than 200 of all kinds in the season; geese, 15; coots 25; snipe 25.

A closed season has also been placed on partridge and prairie chicken.

Open season for Hungarian partridge is from October 1 to November 30. Bag limit is 15 per day and 75 per season.

The following appeal of a western editor is still seeing the rounds, though it is to be hoped that by this time the writer's only trouble is in having his vest made large enough:

"We see by an esteemed contemporary that a young lady in Chicago lends bread with her gloves on—what of that? Ye editor of this paper needs bread with his coat on; he needs bread with his trousers on, in fact he needs bread with all his clothes on, and if some of his debtors don't pay up pretty quick, he'll need bread without anything on at all and this western climate is no garden of Eden.

ing drawn against Edmonton and Calgary crack players, did not survive the first round.

All report a very pleasant and enjoyable trip and intimate their intention to compete again next year.

extra cost, is extra good
In clear, bright Aluminum

A Real Menace

Summer is on the wane. The nights will soon be nippy and chill, and if we have not been careful to stock up on our bank of health with a little surplus of energy during the long sunny days, we may be disgusted to find ourselves with a developing common cold.

So declares the Canadian Red Cross magazine in discussing what it characterizes as a real menace in this country. Coryza is the official name of the common cold, but the name is not very indicative of the nastiness of the disease at first blush. Coryza is a real menace. There is no other affliction that quite so universally causes discomfort or so great a loss of time for workman, business man, and school child.

A lowering of vitality means a slow-down in usefulness or production, and time lost in our busy age is a money loss somewhere, or somehow, to someone. Remembering, however, that a nation's health is a nation's wealth, we'll cease to think in dollars.

The real menace of a cold is its possible bad after-effect on the individual. As it is caused by varieties of bacteria very closely allied to those responsible for the pneumonias, for bronchitis, laryngitis, and possibly catarrh, it often leaves in its wake damages that are permanent.

When we speak of "catching" cold, we speak correctly, if by "catching" we mean getting it from the other fellow. About ninety per cent. of our colds come from him.

Very rarely one may develop his own cold, for these germs probably are ever-present in the nose and throat and will multiply and thrive should the vitality of the host be sufficiently lowered to furnish a good culture ground for their growth.

This may be effectively accomplished by avoiding fresh air and sunshine, by loss of sleep, by over-fatigue, or by living in over-heated rooms. Insufficient, improper, or excessive food or clothing assists greatly.

But for the vast majority of our colds, we may blame close contact with our neighbor who coughs, sneezes, and spits, and who uses his handkerchief to saturation and then greets us with a friendly handshake.

Ignorance of man-made laws excuses no one; ignorance or disregard of the laws of health eventually spares no one. The person with a bad cold should be regarded as having a dangerous communicable disease, and we should know enough, and our children should be taught, to avoid him. Even among people who realize this, knowledge generally outstrips practice, and on and on goes the cold.

The trouble is that the vast majority of people do not regard the common cold seriously enough. If they, or their dear ones, contract tuberculosis, or are stricken down with pneumonia, they are seriously alarmed, but they overlook the fact that the common cold may be but the forerunner of these and other dread diseases. "Oh, it is only a cold," they indifferently say with a shrug of the shoulders, ignorant or careless of the fact that the cold will quickly seize upon the weakest spot in the human body, whether it be the throat, the nose, the lungs, the heart, the kidneys, or elsewhere, and when at last realization comes that there is something seriously wrong it frequently is everlastingly too late.

"It is the little things in life that are causing all the strife," is an old, old saying. It is also what we ignorantly regard as the little things that are responsible for most of the ills from which mankind suffers. Make no mistake about it, the common cold is no little thing although we may look upon it as such. Get after it the moment its first symptoms make their appearance. Better still, exercise all those precautions necessary to prevent taking a cold in the first instance.

Finally, if you can't or won't dodge the common cold, then at least don't make it necessary for your neighbor to dodge yours.

Rust Resistant Wheat

Within Three Years New Variety
Should Be Available Which Will
Grade As High As the Best

Within three years Western Canada should have a rust-resistant wheat which will grade as high as the varieties now being grown, according to L. H. Newman, Dominion cerealist, who is spending a few weeks in the West, inspecting the work of the Dominion Rust Research Laboratory at the Manitoba Agricultural College and the various Dominion experimental farms in the West. He will also visit farms where rust-resistant grains are being produced for experimental purposes.

Canadian Farmers Have Advantage

"Wheat farmers of Montana alone paid nearly \$8,000,000 more in freight rates on their wheat crops in 1927 than they would have paid had they lived in Canada," stated Senator Wheeler of Montana, speaking in the United States Senate recently.

Demand For Farm Implements

Saskatoon Dealers Report Increased
Volume Of Sales

Saskatoon implement firms record an increased volume of sales for this year, ranging from 25 to 100 per cent. over those at this time last year. An encouraging feature, too, is that cash deposits are larger this year. An active demand for combine-harvesters is also noted and a large portion of implements purchased such as plows, discs, etc., have been for tractor equipment.

An Important Industry

The pulp and paper industry is the most important manufacturing industry in Canada; heading the lists in 1926 for gross and net value of manufactured products as well as for distribution of wages and salaries. In total capital invested the industry is second only to electric light and power plants and in total number of employees it is second only to saw-mills.

New Phone Service

Inauguration Of All-Canadian Service Between Winnipeg and Montreal

Inaugurating the all-Canadian telephone service between Winnipeg, Toronto and Montreal, via Port Arthur and Fort William, officials of the Bell Telephone Co., the Canadian Pacific Railway and the Manitoba Government spoke to one another across 1,605 miles of copper wire recently. The new line between Winnipeg and Montreal has nine repeated amplifying stations. Its total weight is 350 tons.

A TIRED-OUT FEELING

Is a Sure Sign That the Blood Is
Thin and Watery

"I am glad to have an opportunity of testifying to the benefits I derived from the use of Dr. Williams' Pink Pills," writes Mrs. Lawrence Kennedy, St. Joseph, N.B. She further says:—"Some years ago I was working as a stenographer, and became badly run-down. I always had a tired-out feeling, had no appetite and suffered terribly from backache. Almost every month I had to remain from the office for a day or two. I was advised to try Dr. Williams' Pink Pills, and I have reason to be glad that I followed this advice. Before I had been taking the pills very long I began to feel much better. Continuing their use my strength came back, I regained my appetite and the terrible backache from which I had suffered disappeared. I have been married some years now and have two fine healthy children, a girl and a boy, and am in the best of health. All this I owe to Dr. Williams' famous Pink Pills, and I trust that these few lines may help some other weak, run-down person."

All weak, run-down people who will give this blood-building tonic a fair trial will find through its use new health and strength. You can get the pills from any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Demand For Canadian Wheat

Believe That Demand From Orient
Will Continue To Increase

Speaking at Shaunavon, Saskatchewan, the other day, A. F. Sproule, director of the Saskatchewan Wheat Pool expressed the belief that the Orient's demands for Canadian wheat, which last year were greater than those of any three previous years, would continue to increase. He mentioned incidentally that the Saskatchewan Wheat Pool now has 925 country elevators and terminal elevators of 26,000,000 bushels capacity, while it is also building another elevator of 6,000,000 capacity.

Nights Of Agony come in the train of asthma. The victim cannot lie down, and sleep is driven from his brain. What grateful relief is the immediate effect of Dr. J. D. Kellogg's Asthma Remedy. It banishes the frightful conditions, clears the passages, and enables the afflicted one to again sleep as soundly and restfully as a child. Insist on the genuine at your nearby druggist.

To Reconstruct Rolling Mills

Manitoba Rolling Mills To Operate
Plant In Medicine Hat

The Medicine Hat City Council has received word from the Manitoba Rolling Mills Company, Winnipeg, that plans are in preparation for the reconstruction of the rolling mills in Medicine Hat, entailing the installation of an open hearth furnace and that the company is considering the use of electricity for the operation of the plant in preference to steam.

Miller's Worm Powders prove their value. They do not cause any violent disturbances in the stomach, any pain or griping, but do their work quietly and painlessly, so that the destruction of the worms is imperceptible. Yet they are thorough, and from the first dose there is improvement in the condition of the sufferer and a cessation of manifestations of internal trouble.

Parks Attract Foreign Tourists

Under the policy of development and publicity being carried out by the Dominion Government the national parks are not only rendering a wider service each year to Canadians themselves, but they are adding to the knowledge of Canada abroad and attracting to the Dominion thousands of visitors from other countries in every part of the globe.

The Family Rolling Stock

Resident Of Vancouver Makes a
Most Interesting Discovery

Even the small family in moderate circumstances of today carries an amazing amount of rolling stock, compared with the family of a generation ago. J. Butterfield, a writer of The Vancouver Province, makes the astonishing discovery that in one modern family there exists under one management one automobile, two bicycles, one express wagon, four roller skates, two scooters, a kiddie car and a baby carriage. Then there is the lawn mower, retained exclusively for one member of the family. Forty years ago a similar household contained two items of rolling stock, a baby carriage and a collection of hoops. "Is there a hoop in all Vancouver now?" asks Mr. Butterfield—Regina Leader.

Minard's Liniment cleanses cuts, etc.

Condensed Milk Production

Within recent years there has been a large increase in the production of condensed milk. The first milk condensing plant was established at Truro, Nova Scotia, in 1833, and there are now in Canada 26 plants for the manufacture of condensed and evaporated milk and milk powder.

Moose Jaw As Convention City

Many Organizations Plan To Hold
Annual Convention In Moose
Jaw In 1929

The Saskatchewan Postmasters' Association, the Saskatchewan Pharmaceutical Association, the Saskatchewan Retail Merchants Association, the Saskatchewan Teachers' Alliance and the Saskatchewan Educational Association are among recent additions to the growing list of organizations that will hold their 1929 conventions in Moose Jaw.

Internally and Externally It Is Good.—The crowning property of Dr. Thomas' Electric Oil is that it can be used internally for many complaints as well as externally. For sore throat, croup, whooping cough, pains in the chest, colic and many kindred ailments it has qualities that are unsurpassed. A bottle of it costs little and there is no loss in always having it at hand.

Banff An All-Year Round Resort

Banff, Alberta, is a mecca of holiday seekers in both summer and winter. During the summer months visitors may enjoy practically every outdoor recreation. Each winter a carnival is held which is attracting an increasing number of visitors annually, and it is predicted that Banff will soon be a world-famous winter resort.

FIREPROOF Farm Construction

GYPROC Fireproof Wallboard is used in the building of elaborate country homes equally as much as for garages, grain bins, poultry houses and barns. For repairs and alterations—for remodelling—it is the most economical and satisfactory wallboard on the market.

Gyproc protects from cold, heat, fire, sound and vermin—yet costs less than materials which do none of these things. Quick and easy to apply. It can neither crack, warp, bulge or shrink. By filling the joints with Gyproc Joint Filler you get a smooth, flat, air-tight surface through which fire, heat, cold and sound cannot penetrate.

Gyproc comes in broad, light, ceiling-high sheets of gypsum rock. Takes any decoration—and is especially suitable for Alabastine. Fuel saved by the insulating qualities of Gyproc will alone pay for the cost within a few seasons.

Clip and fill in coupon for interesting free booklet.

OFFICIAL WHEAT POOL STATEMENT RE: PAYMENTS

Central Selling Agency issued an official statement August 27th by E. B. Ramsay, Secretary and Manager, announcing that the initial payment for the 1928-29 crop will be 85 cents a bushel, basis No. 1 Northern, at Port William and Vancouver.

"Wheat Pool Board in taking this step is following the same consistent policy pursued from the formation of the Pool," Mr. Ramsay stated.

"The initial payment made by the Alberta Wheat Pool when it began operations in 1923 was 75 cents per bushel and the initial payment for the four subsequent years was \$1.00 a bushel; the initial payment has always been based upon market conditions at the opening of the crop year and bears no relation to the price per bushel ultimately received by the Pool members."

Old Crop Sold Out

We are starting the new crop year practically sold out and the rumours which have been circulated during the past summer in respect to the large stocks of wheat held by the Pool are therefore refuted.

"In the recent Pool interim payment which brought the payment already made to our members for the last year's crop up to \$1.40 per bushel, basis No. 1 Northern at Port William and Vancouver. An endorsement of the Pool by the majority of grain growing farmers of Western Canada who have signed up for another five year term is sufficient proof that the faith of our members in orderly marketing has not been shaken."

MAKING A RECORD IN LOADING GRAIN

The rapidity with which grain can be handled at a terminal elevator when the best and latest methods and machinery are employed was illustrated the other day at Port Arthur, Ontario, at the new elevator of United Grain Growers Limited. With in a time of seven hours and twenty minutes 350,000 bushels of wheat were loaded into the S.S. Le Moyne, breaking all previous records. The fastest time previously made with a cargo of this size has been eight hours and thirty minutes.

The elevator is equipped with 16 loading spouts, each fourteen inches

in diameter, all of which were employed at the same time. These spouts run from loading bins, in which grain is dropped after being weighed at the top of the elevator in four hopper scales, each with a capacity of 2,500 bushels. Grain is brought to the scales in four elevators from the bottom of the "work house," where it is conveyed on belts from the storage bins. This rate of shipping means over 75,000 bushels per hour, equivalent to loading a car load of grain every minute.

The United Grain Growers' elevator shown in the picture, which was placed in service during the past crop year

has a capacity of 5,500,000 bushels. New features of design were incorporated in its structure, and it was planned and equipped to provide for the most rapid and efficient possible handling of grain. The loading above referred to was accomplished in the ordinary course of business without any special preparations designed for making a record.

The S.S. Le Moyne belongs to the fleet of the Canada Steamship Lines, and is the largest vessel on the Great Lakes. She is 613 feet long, with a beam of 70 feet while she draws up to 20 feet of water when fully loaded.

HON. PHILIP ROY RECOMMENDED AS ENVOY TO PARIS

Ottawa. Hon. Philippe Roy has been recommended by the Dominion Government to His Majesty the King for appointment as Canadian minister plenipotentiary to Paris, Premier King has announced.

Mr. Roy has been Canadian commissioner in Paris for the past 18 years.

No action to appoint a Canadian minister to Tokio has yet been taken, the prime minister said.

It is expected that the formal commission for the appointment of Mr. Roy will be issued by His Majesty in time for the opening of the legation in Paris during the first week of October.

Mr. Roy was born on December 18, 1868, at St. Francois, Que., and was called to the Senate on March 8, 1906. He was appointed to Paris on May 1, 1911, being one of the administration of the late Sir Wilfred Laurier. Mr. Roy was also appointed agent-general for the province of Quebec at Paris on January 15, 1912.

Message From Amundsen

Believe Note Found In Bottle To Be In Handwriting Of Lost Explorer

London. Despatches to the Daily Mail from The Hague state that the Norwegian Minister at Amsterdam announced an apparently genuine message from Roald Amundsen, noted explorer who was lost while participating in the expeditions seeking the crew of the wrecked Polar dirigible Italia, had been found in a bottle near Rottumeroog.

The message, which was compared with Amundsen's handwriting and was said to be authentic, gave the position of the explorer and his party on July 1.

Rottumeroog is in the Netherland Islands in the North Sea.

Amundsen and four companions have been missing since they started in a French seaplane to search for the Italia party.

Inspect Australian Ship

12,000 People Visit New Cruiser During Stay At Montreal

Montreal. H.M.A.S. Australia, flagship of the Royal Australian Navy, sailed for Quebec following a visit of several days to Montreal. It is estimated that 12,000 persons visited the new cruiser while she was here.

The Australia will remain at Quebec four days, following which she will proceed to Halifax, which will be visited on August 22. Other places to be visited include Boston, August 25; New York, August 30; Chesapeake Bay, September 4; Colon, September 17; Tahiti, September 20; Wellington, N.Z., October 9; Brisbane, Australia, October 17; Sydney, N.S.W., October 23.

Recognition Of Ecuador

United States Now Convinced Of Country's Good Intentions

Washington, D.C. — The United States has accorded complete recognition to the Government now functioning in Ecuador, the State Department announced.

Secretary of State Kellogg has informed the Ecuadorian Government by note that beginning immediately the United States, convinced of Ecuador's good intentions to return to a constitutional form of government which it abandoned in 1925, accords recognition to the present regime.

Will Visit Ireland

Washington. Secretary of State Kellogg has practically decided to visit Ireland after signing the fifteen-power anti-war treaty in Paris, August 27, in order to return the call of President Cosgrave of the executive council of the Irish Free State, made during his visit to this country. It is not unlikely that Mr. Kellogg also will visit London.

Canada has six seismograph stations for measuring and receiving earthquake shocks.

W. N. U. 1747

Receives Re-Appointment

Dr. McLean To Be Assistant Chief Commissioner Of Rail Board

Ottawa. Dr. Simon J. McLean, Ottawa, has been re-appointed assistant chief commissioner of the board of railway commissioners. Dr. McLean's term of office expired August 6, and his re-appointment is for a further period of ten years. Dr. McLean was originally appointed to the board in 1908.

The term of Commissioner Frank Oliver will terminate toward the end of September, when Mr. Oliver will have reached the age limit of 75 years.

Dr. McLean drafted the Dominion Railway Act, and his re-appointment for a third term creates a precedent. Since the formation of the Board of Railway Commissioners in 1904, Dr. McLean has been the only commissioner to be re-appointed after expiration of the ten-year term.

While no official statement has been made in the matter, it is rumored that legislation may possibly be introduced at the next session of Parliament providing for the superannuation of members of the board.

To Take Care Of British Harvesters

Effort Will Be Made To Provide Permanent Work Throughout Winter

Saskatoon, Sask. — If the British miners who are coming to the west to work in the harvest fields do not obtain permanent work throughout the winter it will not be the fault of the railway companies or want of effort on their part.

No stone will be left unturned to try to keep these men here and in the opinion of T. Devlin, local manager of the Canadian National colonization department, future immigration from the British Isles depends largely on the success or failure of this venture.

Mr. Devlin said that he could see no reason why the project should not prove an outstanding success. "The men who are coming are by no means strangers to hard work and they know just as much about farm work as the average harvester from Eastern Canada," he says.

Death Of Canadian Novelist

Mrs. Isabel Ecclestone MacKay, Dies At Her Home In Vancouver

Vancouver. Mrs. Isabel Ecclestone MacKay, Canadian novelist, poetess and playwright, wife of Peter J. MacKay, official reporter of the Supreme Court of British Columbia, died at her home here after a year's illness. She was born in Woodstock, Ont., 52 years ago.

The late Mrs. MacKay was the daughter of Mr. and Mrs. Donald MacLeod MacPherson, of Woodstock, and came to Vancouver 19 years ago.

She was the authoress of several novels, including "House of Windows," "Up the Hill and Over," "Mist of Morning," "The Window Gazer," and "Glengarrow." Mrs. MacKay was also the writer of a book of lyrics, "Fires Of Driftwood," and a volume of poems for children entitled "The Shining Ship."

She also wrote a number of plays which have been produced in Canada and the United States.

In addition to her husband she leaves three daughters.

Gold Strike In Ontario

Rich Find Is Reported In Vicinity Of Mine Centre

Toronto. A special despatch to the Mail and Empire from Lochalsh, Ont., says:

"Reports from Mine Centre, west of Fort William, on the Canadian National Railways, bring word of what is described as a sensational gold strike made on the Johnson claims at that point. The claims are located south of the Foley mine of British-Canadian Mines, Ltd., and east of Little Vermilion Lake.

"A mining engineer returning from the scene of the strike says that the ore taken from the surface is glittering with visible gold which would run thousands of dollars to the ton, and is said to equal or even eclipse the remarkable find made on the Isabella property of Northern Red Lake Mines, Ltd., reported several weeks ago.

Heads Native Sons Of Canada

Dr. J. H. Cotton, of Toronto, was elected president of the National Council of the Native Sons of Canada at their annual meeting in Regina. Dr. Cotton is the first eastern member of the organization to be appointed to the presidency. Formerly he was appointed to the vice-presidency of the council.

Expedition Well Equipped

Commander Byrd's Antarctic Venture May Cost One Million Dollars

New York. — The Antarctic expedition of Commander Richard E. Byrd, which starts from this port this week, will be the most extensive expedition in the history of exploration and may cost one million dollars.

At the expedition's headquarters here, it was said the cost would be not less than \$855,000, and before the expedition returns to this country may reach \$1,000,000.

Contributions received to date include \$435,000 worth of equipment and \$237,543 in cash. The total expense of Commander Byrd's North Pole expedition in 1926 was \$140,000.

Fuller Party Reported Safe

Have Been Reprovisioned and Are Now Headed For Shores Of Hudson Bay

Regina, Sask. Three weeks ago the John D. Fuller expedition of student geologists from Iowa into the north was safely launched on a new and shorter route to Hudson bay. The four men, who have been almost given up as dead for the past six weeks, have been reprovisioned and given new equipment for the trail. They are now headed along the route through Neultin Lakes and smaller bodies of water and down the Thlewiaza River to Hudson Bay. They are expected to emerge near Driftwood Point, halfway between Chesterfield Inlet, their first objective, and Fort Churchill.

BRITISH STUDENT HARVESTERS

British university students seeking information, experience and adventure are coming to Canada to help with the harvest in the West this year and places for them are being found by the colonization department of the Canadian National Railways. If they are all of the type of the first four to arrive in the West both Canada and Great Britain should gain by their enterprise. The photograph shows the advance guard of four of these young men. From left to right, with the places where they are being stationed, they are: W. D. Harrison (Marcelin, Sask.); E. A. Corcoran (Weldon, Sask.); F. W. Beale (Carleton Place, Ont.); and J. D. Preston-Jones (Atwater, Sask.).

Hope For Peaceful Relations

Kellogg Peace Pact a Revolutionary Policy Among Nations

Wausau, Wis. — Within a fortnight of the date on which the international treaty for outlawing war is to be signed, President Coolidge declared before the Wisconsin State American Legion here, that the Kellogg pact "holds a greater hope for peaceful relations than was ever before given to the world."

The President maintained that by taking a leading position in securing this agreement, the United States proved its pacific inclinations toward all nations.

"We have demonstrated," Mr. Coolidge declared, "that when we have said we maintained our armaments, not for aggression, but purely for defence, we were making a candid statement which we were willing to verify by our actions."

Th President said that while "it would be too much to suppose that war had been entirely banished, yet a new and important barrier, reasonable and honorable," has been created to bar it.

"This agreement proposes a revolutionary policy among nations," he said. "It holds a greater hope for peaceful relations than was ever before given to the world. If those who are involved in it, having started it, will finish it, its provisions will prove one of the greatest blessings ever bestowed upon humanity. It is a fitting consummation to the first decade of peace."

Influenza In the North

Serious Epidemic Has Broken Out In Mackenzie River District

Winnipeg. — A serious epidemic of influenza has broken out along the banks of the Mackenzie River with considerable loss of life, according to a letter received from Rev. W. B. Singleton, principal of the Hay River Indian school of the Indian and Eskimo mission of the Missionary Society of the Church of England.

At Fort Resolution, where Slave River flows into Slave Lake, 20 deaths were reported. At Hay River, towards the west end of the lake, there were ten deaths. The toll of deaths at other points was thought to be even greater, the letter stated.

The Manitoba Division, Dominion Department of Indian Affairs, had received no information of any epidemic in this province.

Miners For Harvest Fields

The Pas, Man. Men are flocking in from railway construction camps along the Flin Flon railway seeking higher wages in the harvest fields in the interior. Five hundred men have departed from The Pas on the last two trains going south.

SPIRITED FIGHT ON LAKE ERIE WITH RUM FLEET

Buffalo. — The struggle for supremacy between the rum running fleet on the Niagara River and Lake Erie blazed into spirited action in which government boats set afire and sank one craft and captured two others carrying contraband liquor and ale.

At Niagara below the Falls a speedy boat carrying many cases of both whiskey and ale fell into the hands of the federal patrol.

Earlier in the day the C.G. 121 sighted a suspicious looking craft off Brocton, on Lake Erie. A chase followed during which the government boat fired 50 rounds.

After the gun fire had set the rum runner ablaze the coastguard boat took off the crew of two men and stood by while the damaged craft burned to the water's edge.

The other boat was caught on Lake Erie, off Barcelona. Three hundred rounds were fired at it before the crew decided to heave to and surrender. Two men and a small quantity of liquor were found.

Praises Pool System

Toronto Professor Says Pool Has Revolutionized Morale Of Farming Community

Williamstown, Mass. — Agricultural co-operation is not merely a marketing device but a means of lifting the farmer to a plane of greater prosperity and keeping him there, Prof. C. R. Fay, of the University of Toronto, told the Institute of Politics here.

"In Canada," he said, "the wheat pool has revolutionized the morale of the farming community, relieving the farmer of the difficulty of deciding when to sell, eliminating the pressure to sell at certain seasons, and basing all farm marketing on statistical knowledge."

The co-operative system he declared, is of special benefit to the small farmers, whose plane of living has been raised to the highest level it ever reached.

In the United States the government's attitude toward the farmer's problems is one of encouragement through active assistance in research and educational facilities, C. L. Christensen, chief of the department of co-operative marketing of the department of agriculture, said.

All Bitterness Forgotten

Remarkable Tolerance Is Shown In Irish Free State

Victoria, B.C. — Right Hon. Hugh Kennedy, chief justice of Ireland and honorary member of American and Canadian Bar Associations, was the guest-speaker at the Canadian Club luncheon here.

"We had a fight with England but that fight terminated in a treaty of peace, and a reconciliation was reached which I believe has wiped out the rancor which existed in the past," the chief justice said.

One of the first steps in the re-organization of the country was placing agriculture on a firm basis, as agriculture for years to come would continue as the foundation of prosperity in Ireland, he said.

He said that the Free State had shown a remarkable degree of toleration with the test of religion never entering into politics. As an example, he referred to the fact that the minister of finance was a Presbyterian from an Orange county.

Montreal Garment Workers Quit

Montreal. — Twelve hundred employees and 70 work shops in Montreal are affected by the present "stoppage" of work of local members of the Amalgamated Clothing Workers of America. It is not spoken of as a strike by union officials because not all the shops of the city are affected. Speedy termination of the dispute is expected.

Mine Blast Is Fatal

Calgary. L. L. Johnson, for years chairman of the Department of Soldiers' Civil Re-establishment at Calgary, was instantly killed when a charge of dynamite exploded prematurely in Mr. Johnson's mine at Dodds, Alta., according to information received here.

Copyright, Canada, 1928

CONCLUSION

At Arthur Warner's bungalow the flowers were blooming. Hollyhocks stood straight and tall against the house, with their quaint, old-fashioned rosettes in prim rows on the stalks, crimson and cream and white. Arthur had planted them, but had not seen the bloom. The walk from the house was bordered with round clumps of dwarf nasturtiums, orange and red, alternating with mounds of sweet alyssum and candytuft, white as snow, and at their feet in a straight line, marking the edge of the gravel path, ran a line of ground lobelia as blue as the skies above.

On one side of the walk stood a rockery of stones from the river, which Helmi had whitewashed, and from which now grew trailing nasturtiums, in all the shades from creamy pink to scarlet and crimson, peeping out from their glossy green leaves. On the other side was a rustic bench made gay with cushions, where one could sit and think and dream, watching the changing lights upon the mountains.

Here sat Helmi, thinking and dreaming, this Saturday afternoon in late August. Her family had all gone to Eagle Mines—Rosie and Danny Corbett who were spending the holidays with her; old Sim and young Lili, the latter now an enquiring young lady of two and a half years. The teacher, too, who boarded at the bungalow had gone with them.

Twice a week Helmi sent to town a load of vegetables and fresh fish from the English River, and steadily her savings in the bank were increasing. It seemed a long time since she had climbed into the old buckboard, with Lili on her knee, Cleo close beside her, and the pups in a box behind, and canvassed the neighborhood to see where she could get a cow "on terms to suit purchaser." She had been successful in her quest, and brought the cow home with her; the

"PINKHAM'S COMPOUND IS WONDERFUL"

Read This Letter from a
Grateful Woman

Vanessa, Ont.—"I think Lydia E. Pinkham's Vegetable Compound is wonderful. I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."—Mrs. MILTON McMILLAN, Vanessa, Ontario.

W. N. U. 1749

terms being that she do the weekly washing for the numerous and increasing Peterson family, three miles away.

Helmi thought of her neighbors now with real affection. They had all befriended her, and she was glad that Arthur Warner had learned to know them better. Helmi had told them quite frankly all she knew of him, and when his letters came she made no secret of them. When she made the suggestion that weekly meetings should be held at his house, where knitting and sewing could be done for the soldiers, the women gladly came, and a new spirit of friendliness came to the settlement. Every week a letter was written to him, and parcels sent, and so it came about that, though thousands of miles intervened, Arthur Warner had come to know his neighbors and they him.

No letters had come from Arthur now for several months and Helmi feared that the shadow she had seen upon his face the day she said goodbye to him, had fallen. In her dreams she had seen a luminous figure, all in white, that had walked over to Arthur and tapped him on shoulder; and he nodded his willingness and went away, and the same night Cleo had fretted and cried all night and would not be comforted.

But the boxes went every week, for Helmi and the women knew that some poor soldier would be happier for them.

Of Jack she had not had a word, and in the midst of all her happiness and achievement there was the one sore thought which sometimes required all Helmi's faith to drive away. Jack's face, so sad and drawn, drifting away from her on the slowly moving train, fell across her happiest hours. But Helmi had not forgotten the experience she had the night of the storm, when her soul was lifted high above the mists of earth.

The hearts of the women were knitted to Helmi's because she had a way of comforting them in their troubles. There was strength in the touch of her hand, and healing in her presence.

"Look what she's done for me," old Sim would often say, "when I got crippled for good and couldn't do my work in the mine any more. 'Come to me, Sim,' she said; I am all alone except for little Lili and the dogs, and I need you Sim,' she says, 'for company'—makin' out I would be doin' her a favor. Look what a home she has given me."

It was Helmi, too, who discovered the seam of coal a little farther up the river, shining and hard, that burned with a blue flame and gave off more heat and burned longer than any other coal she had ever seen; and it was like her to tell all the neighbors about it and urge them to come and get all they wanted for their winter fires.

The peace which comes to those who work hard and have a clear conscience was Helmi's that afternoon as she listened to the waterfall behind the house, and through her dreaming came the happy consciousness that her family would soon be home hungry from town and she would need to go into the house and get supper ready.

The valley before her was beginning to show the purpling tints of evening as the sun wheeled its way over the mountains. A car came quickly around the turn of the hill, its wheels making no sound in the dusty road. . . . He was half way to the house before Helmi saw who it was.

That night, after the others had gone to bed, Jack and Helmi sat long before the fire. Little Lili in her pretty, white nightdress was fast asleep in her father's arms.

"Let me lay her down, Jack," said Helmi. But Jack could not part with her. "Remember I am two years and a half behind," he said. Helmi bent over him as she tucked the shawl around the little girl. "You won't leave us again, Jack, will you—not even for gold to the Nehanni?"

"Gold from Nehanni!" Jack repeated after her. "I should say not! What do I need of Nehanni gold?" Then drawing Helmi's face to his he said tenderly, "I got my gold from Finland."

Eight years have gone by. The Warner mine is one of the best in the Province, for the coal is a high-grade anthracite. Unlike most mine owners, the Porans have not moved to the city, but have a large gray stucco house, with a red roof and

many windows, on the bank of English River. Behind the house is a large grassy playground, enclosed by a high board fence, where a happy group of children and collie dogs may be seen at play. There is one old dog that walks stiffly, but is plainly the best loved of all.

Below the falls stands a green and white bath-house, into which the water is piped from the stream. It is called the "Finnish Bath-House," because there is in it a room for steam baths where the steam is formed by water falling on heated stones.

There is a recreation ground across the road, and a white church on the hillside. In the basement of the church there is a well appointed dining-room, where the boys and girls' clubs often meet for supper parties.

The bungalow is a club-house for the miners and their wives, and on the lawn there is a simple white stone with an inscription which reads:—

"Sacred to the Memory
of
ARTHUR WARNER,

who made the first settlement in this valley, and who loved its solitude and beauty.

In 1914

he answered the call of his country:

On January 25th, 1917

while escaping from a German prison camp, he deliberately gave his own life to purchase freedom for his companion, who now erects this stone in the hope that as long as grass grows in the valley, and water runs in the English River, the memory of ARTHUR WARNER may not fade.

THE END

SAVE THE CHILDREN

In Summer When Childhood Ailments Are Most Dangerous

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer, in most cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve these troubles, or if given occasionally to the well child they will prevent their coming on. The Tablets are guaranteed to be absolutely harmless even to the new-born babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Little Helps For This Week

"But now abideth faith, hope, love, these three; and the greatest of these is love."—1 Cor. xiii. 13 (R.V.)

More faith, dear Lord, more faith! Take all these doubts away; Oh let the simple words "He saith" Confirm my faith each day.

More hope, dear Lord, more hope! To conquer timid fear, To cheer life's path as on I grope Till Heaven's own light appear.

More love, dear Lord, more love! Such as on earth was Thine.—All graces and all gifts above, Unselfish love be mine.

—Elizabeth C. Kinney.

Hope is the mainspring of human action; Faith seals our lease of immortality; and Charity and Love give the passport to the soul's true and lasting happiness.—Street.

The Porcupine Gold Area

The Porcupine gold area in the District of Cochrane, northern Ontario, occupies first rank among the gold producing areas in Canada.

Minard's Liniment for Every Pain.

British Industries Fair

To Be Held At Birmingham, England,
February 18 to March 31, 1929

The attention of Canadian Manufacturers is directed to the British Industries Fair, Birmingham, Eng., 1929, where the Canadian Government has contracted for 2,800 square feet of space. It is hoped that Canadian manufacturers will be well represented at this forthcoming fair, and with a view to furnishing detailed information, advance circulars are being forwarded both to the Canadian Manufacturers' Association, Toronto and the Department of Trade and Commerce, Ottawa.

The tenth fair will be held from February 18 to March 31, 1929, in the permanent and considerably enlarged exhibition building at Castle Bromwich, which with a total floor space of 400,000 square feet forms the largest exhibition hall in the United Kingdom. The venue of the fair is the centre of a great industrial area and is most conveniently situated for displaying general manufactured goods.

In connection with above, the Canadian Pacific Railway offers prospective exhibitors and buyers ten convenient sailings from Canada's national winter port, Saint John, N.B. Dates of sailing as follows:

Feb. 1, S.S. Minnedosa, Liverpool via Glasgow; Feb. 8, S.S. Metagama, Liverpool via Glasgow and Belfast; Feb. 15, S.S. Montroyal, Liverpool via Glasgow; Feb. 21, S.S. Melita, Southampton via Cherbourg; Feb. 22, S.S. Montrose, Liverpool via Belfast and Glasgow; Mar. 1, S.S. Minnedosa, Liverpool via Glasgow; Mar. 8, S.S. Montclare, Liverpool via Belfast and Glasgow; Mar. 14, S.S. Duchess of Bedford, Liverpool; Mar. 14, S.S. Metagama, Southampton via Cherbourg; Mar. 15, S.S. Montroyal, Liverpool via Glasgow.

Excellent accommodation is available on all these cabin class ships at winter rates, which are considerably lower than during the heavy season.

Attractive rail fares are available from all points in connection with ocean passage.

The Canadian Pacific Railway Co. will be glad to arrange accommodation for those planning to attend the Birmingham Fair. Requests through any C.P.R. agent will receive courteous and prompt attention.

New Serial Story

Commencing with next issue we will offer our readers a new serial story: "The Crimson West," by Alex. Philip. As might be imagined, the story deals with life in Western Canada, the plot being laid in British Columbia. It is full of life and action, and should have a particular appeal to the lovers of out-doors and to Western Canada readers generally. The story is dedicated by the author "To those fortunates who first saw the light of day in this glorious country and with whom rests the future prosperity of the land of their birth—the native sons of Canada." Do not miss the opening chapters appearing next week.

Growth Of Tree-Planting

In connection with the distribution of trees to prairie farmers in Canada which is made annually by the Tree Planting Division of the Forest Service, Department of the Interior, it is interesting to note that each spring nearly 8,000,000 young trees are sent out; shipment of these trees require 2½ carloads of moss and nearly 10 miles of 45-inch burlap. Before many years are gone, the "Treeless Prairie" will be a thing of the past.

So far nobody has climbed the Matterhorn on roller skates or ridden up Niagara Falls on a bicycle, but it would look as if about everything else had been tried.

Teeth and Health

Issued By The Canadian Dental Hygiene Council and Published By The Saskatchewan Dental Society

THE BICUSPIDS

"Count them"—two in line back of each cuspid, making eight all told.

"Bi-two-cuspid"—tooth with one point, or "cusp"—so this, then, is a two cuspid tooth.

(You have doubtless observed, however, that the inner cusps of the lower tooth is but durimentary—a modified form of the original full cusp.) Then, they are also called pre-molars—again our Latin—"pre," meaning "before"—you see why?

This tooth erupts generally from the tenth to the twelfth years, and though chiefly utilitarian, yet it serves a cosmetic function as well, to prove this save up your best joke and tell it to your neighbor then slyly observe the open space marking a missing bi-cuspid which you had probably not noticed before.

To paraphrase: "Loud laugh betrays the vacant space."

Now, there is a danger peculiar to the upper bicuspids which is this. This tooth lies in a position just below the "antrum," or air sinus that is situated in the large facial bone, the upper maxillary, and frequently just a thin shell of bone forming the floor of the antrum, separates the latter from the end of the root or roots.

Should, then, decay proceed so far in this tooth as to infect the pulp, causing it to die, with a resultant abscess—it occasionally happens that pus will burrow into the antrum, infecting it and with dire consequences—generally necessitating an operation at the hands of the surgeon.

Tell your dentist that you want your teeth kept well, not just made well. The responsibility is then his.

Canadian Butter Consumption

The per capita consumption of butter in Canada in 1926 has been estimated at nearly 28½ pounds and the consumption of cheese slightly over 4 pounds.

What Will
you
do

When your
Children Cry
for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night may find you very thankful there's a bottle in the house. Just a few drops, and that colic or constipation is relieved; or diarrhoea checked. A vegetable product; a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use; in emergencies, or for everyday ailments. Any hour of the day or night that Baby becomes fretful, or restless, Castoria was never more popular with mothers than it is today. Every druggist has it.
